

Crazy Quilters' Quilt Guild Tour de Quilts 2021 - Spinning Star

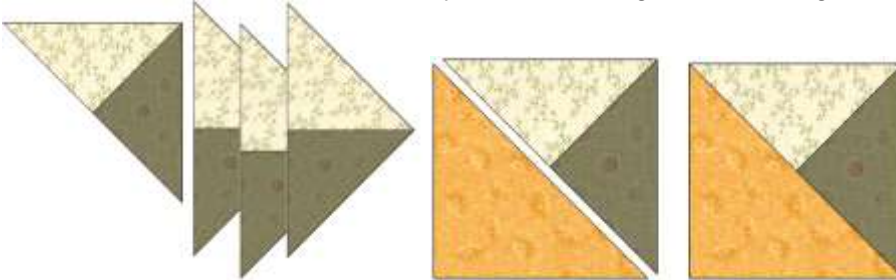

Check your measurements very carefully. Each block should measure 12 1/2 inches when it is finished. Accuracy from beginning to end will assure that your blocks come out perfectly. Measure carefully, sew carefully, and you will have a perfect block.

For the Spinning Star block you will need:
From your background cut four 4 1/2 inch squares and one 5 1/4 inch square, which you need to divide diagonally into quarters.

- (a) From your green cut one 5 1/4 inch square, and divide this diagonally into quarters.
(b) From your yellow cut two 4 7/8 inch squares and divide those diagonally once
(c) From your second green cut one 4 1/2 inch square.

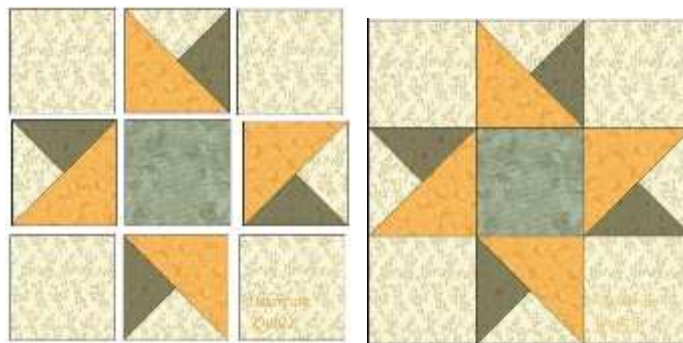

Sew the short side of your green and white quarter triangles together as show here. Sew those to the long side of the yellow triangle. Remember you are working with bias edges, so sew carefully & try not to stretch them.

Measure this unit when you have pressed it, and if necessary, trim it back to 4 1/2 inches square.

Now sew the rows together as shown here.

Your finished block should measure 12 1/2 inches.

The Crazy Quilters Quilt Guild have been given permission by Delaware Quilts to use this block for educational purposes only. This pattern can be used for personal use only and cannot be used commercially without Delaware Quilt's permission. No copies may be made without Delaware Quilt's permission. This includes the patterns as well as any graphics and/or instructions that are associated with a pattern.
